About the Friends of Vintage Trains

The Friends of Vintage Trains is a voluntary organisation that provides support to the operating subsidiaries of the Vintage Trains Trust:

- * Vintage Trains Limited, which runs steam and diesel trains on the national railway network.
- * Tyseley Locomotive Works which is the base for Vintage Trains where heritage railway locomotives and coaches are restored and maintained to main line standard.

The Friends is an active supporters group which provides volunteer support assisting with events, restoration, stewarding on trains and fund raising. Indeed it would be impossible to operate the trains without this dedicated band of volunteers.

Funds raised by the Friends are donated to restoration and site projects and used for the benefit of members of the Friends by, for example, offering social events to the members.

Volunteers undertake a variety of tasks

Membership

Why not consider becoming a member of the Friends of Vintage Trains? For a small annual subscription you would play a part in a growing heritage railway organisation providing leisure activities and nostalgic days out to the public using the main line rail network. You will also enjoy a number of membership benefits, too, such as discounted admission to the public event days at Tyseley, and social events, including a speaker, which are free of charge to members and a guest..

Vintage Trains Limited

Vintage Trains Limited (VTL) is the operating company for the collection of locomotives kept at Tyseley Locomotive Works by the Vintage Trains Trust. This includes a large collection of express steam engines, smaller tank engines and diesels, which may run on the main line from time to time.

Engines from the collection plus guest locomotives are used to haul steam and diesel excursions on the national mainline railway network to places of interest, making an excellent day out for families and railway enthusiasts alike.

VTL have used the following engines, amongst others, to haul its mainline tours:-

Tyseley Collection:

- GWR 4-6-0 Castle Class 7029 "Clun Castle"
- GWR 4-6-0 Castle Class 4073 "Defiant"
- GWR 4-6-0 Castle Class 5043 "Earl of Mount Edgcumbe"
- GWR 4-6-0 Hall Class 4965 "Rood Ashton Hall"
- GWR 57xx 9600 Pannier Tank
- LMS Jubilee Class 4-6-0 5593 "Kolhapur"

Guest Locomotives have included:

- LMS 4-6-2 'Princess Coronation' class 6233 "Duchess of Sutherland"
- LMS Jubilee Class 5596 "Bahamas"

- BR Standard Class 8 4-6-2 "Duke of Gloucester"
- GWR 4-6-0 Hall class 5972 "Olton Hall"
- LNER 4-6-2 A4 class 4464 "Bittern"
- BR 4-6-2 70000 "Britannia"

Excursions

Excursion programmes run throughout the year and feature a regular summer steam train service which runs on selected Sundays from mid-July through to early September, between Birmingham and Stratford-upon-Avon. This programme is known as the *Shakespeare Express* and has been running every year since 1998. It has appeal to families and is an affordable way of enjoying mainline steam.

The company has restored its own train of coaches for use on the *Shakespeare Express* and for other main line excursions and has a continual coach improvement programme.

VTL can provide complete trains (engine and coaches) for private charter and corporate bookings. From time to time engines and/or coaches (optionally fully stewarded) are hired to other tour companies.

We hope you will join us on the *Shakespeare Express*, and some (or all!) of our excursions from our programme of days out using steam, diesel and electric engines to haul the trains.
